

Asmet
Source of Strength

Hall 13 Stand D50

It's Official - We are now Asmet! – GIFA Launch Event

Following our letter earlier this month, we're delighted to reaffirm that since 6th June 2011, we are no longer known as A & S Metallurgical Resources Ltd and are instead, now simply known as Asmet.

The UK Company (which incorporates the German and Belgian Vat registered branches) is known as **Asmet (UK) Limited** and the Spanish Company is known as **Asmet (Spain) S.L.** All other company details, such as registration numbers, VAT numbers, bank details and contact information, remain the same.**

Our new identity reflects our new vision and hopes for the future. We will be officially launching Asmet at GIFA 2011 and would like to invite you to come along and join us on **Thursday 30 June at 2pm** as we celebrate the beginning of a new era for our company. *(The Asmet stand will be situated in Hall 13, Stand D50)*

As well as showcasing our new identity, we'll be exhibiting our wide range of products and the Asmet team will be on hand to speak to you about our improved level of service, as we build even stronger partnerships with leading world producers to transform the way we supply metallurgical resources across the globe.

In Europe, we now have strategically located warehouse hubs in the UK, Spain, Germany and Belgium so we can provide customers with the materials they need, fast and on demand. Our extensive product range includes pig iron, ferro alloys, silicon carbide, magnesium ferro silicon, inoculants, ceramic / foam metal filters, magnesium / inoculant wires, and aluminium master alloys.

We're incredibly excited about our new vision and look forward to sharing this with you. In the meantime if you do have any questions about our changes or would like more information, please don't hesitate to get in touch.

We hope to see you there!

Best wishes,

Andrew Parker
Operations Manager

**Please note that Asmet is fully committed to provide customers with an excellent standard of sales and technical support. If you do however have any queries, please contact: -
